Catania, February 1st, 2008

Dear Colleague,

it is with real pleasure that we invite you to a workshop at the Department of Mathematics and Computer Science at the University of Catania. This workshop is part of the Fulbright Senior Specialist Award given to Professor Anna Nagurney; see:

http://www.fulbright.it/UNIV/fulbright_ssp.asp who is being hosted by Professor Patrizia Daniele.

The general theme of the Fulbright Award is: Complex Networks and Vulnerability Analysis: From Innovations in Theory to Education and Practice. More information on this Fulbright award is contained in the following press release:

<http://www.umass.edu/newsoffice/newsreleases/articles/70076.php>

The title of the workshop is: Complex Networks -- Equilibrium and Vulnerability Analysis with Applications.

The workshop will take place on Monday, Tuesday, and Wednesday, March 10-12, 2008 (Room 124) beginning with a Monday morning lecture from 10:00AM - 11:15AM by Professor Anna Nagurney.

It is planned to host talks on Monday afternoon: 3:30-6:30PM and on Tuesday and Wednesday mornings: 9:00AM-noon. The talks should be approximately 30-35 minutes with time for discussion.

If you are interested in presenting, please email your title and short abstract to Professors Daniele and Nagurney at the email addresses above. We will do our best to accommodate the interested speakers, according to the availability of time. Tuesday afternoon will be devoted to the presentation of short communications. If you wish to participate but not to speak, please let us know on which days we can expect your attendance.

On Monday, the theme will be: Fundamental Network Paradigms and Applications; On Tuesday, the theme will be Dynamic Networks, and on Wednesday: New Perspectives for Complex Networks and Vulnerability Analysis.

The registration fee is 50 €

We are looking forward to a very unique interdisciplinary scientific workshop!

Please provide the information no later than February 10, 2008.

It is planned to post the presentations (in pdf format) of the speakers on a webpage as well as links to relevant papers for discussion and archival purposes.
