Welcome to the Winter 2012 edition of *The Supernetwork Sentinel*, the newsletter of the Virtual Center for Supernetworks at the Isenberg School of Management, UMass Amherst. *The Supernetwork Sentinel* is published in Fall, Winter, and Summer editions. The newsletter’s purpose is to keep you informed of events, activities, and successes of the Virtual Center for Supernetworks, the Center Associates, and the Supernetworks Laboratory for Computation and Visualization. In this newsletter, we highlight the notable activities and accomplishments of the Center Associates. As always, we include a list of our recent Center publications.

Anna Nagurney  
John F. Smith Memorial Professor  
Director – Virtual Center for Supernetworks

Center Associates Shine at Conferences and Other Venues

The Center Associates had a very busy Fall 2011 semester. In addition to the courses that they taught at various universities on three different continents, they also spoke at a variety of conferences and venues.

Professors Nagurney and Altman at the NetGCoop Conference in Paris

Professor Anna Nagurney was a keynote speaker at NetGCoop 2011, the International Conference on Network Games, Control, and Optimization, which took place in Paris, France, October 12-14. The title of her keynote was Grand Challenges and Opportunities in Supply Chain Network Analysis to Design. She thanks her hosts, Drs. Baser, Altman, and Chahed, for their wonderful hospitality.

The venue (Mount Rushmore) for the FIE 2011 reception

Center Associate Professor Ladimer S. Nagurney of the University of Hartford presented the paper, Synergies and Opportunities Between Engineering and Law, in a session titled: Professional Skills Beyond Teamwork and Communication, at the 2011 Frontiers in Education (FIE) Conference, held October 13-15 in Rapid City, South Dakota.

On October 28, 2011, the Center Director delivered a Management Science Research Seminar, entitled: Perishable Product Supply Chains in Health Care: Models, Analysis, and Computations, at the Desautels School of Management at McGill University in Montreal, Canada. Her wonderful host was Professor Vedat Verter.

The major annual conference at which Center Associates have been convening annually is the INFORMS Annual Conference, which this year took place in Charlotte, North Carolina, November 13-16, 2011.

Several of the Center Associates post the Dr. Cruz session with a co-author

Center Associate Professor Jose M. Cruz of the University of Connecticut organized a session for this conference, Sustainable and Responsible Supply Chain Management, in which he spoke, along with several other Center Associates. The session was part of the Manufacturing & Service Operations Management / Sustainable Operations Cluster. In particular, Doctoral Student Center Associate Min Yu presented the paper, Sustainable Fashion Supply Chain Management Under Oligopolistic Competition and Brand Differentiation, co-authored with the Center Director, and Center Associate Professor Zugang "Leo" Liu of Penn State Hazleton presented the paper, Supply Chains Competition Through Corporate Social Responsibility (CSR). Center Associate Professor Tina Wakolbinger of the Vienna University of Economics and Business traveled from Austria to speak on Green Information Systems for Product Recovery Management, co-authored with Professor Kettinger of the University of Memphis and Professor Toyasaki of York University in Canada.

In another session, also in the same cluster, Center Associate Professor Patrick Qiang of Penn State Malvern presented his latest research, joint with Center Associates Professors Ke Ke of Central Washington University, Trisha Anderson of Texas Wesleyan University, and June Dong of SUNY Oswego, on closed loop supply chains.
Center Associate Professor Zugang "Leo" Liu of Penn State Hazleton also presented at this conference a paper with Professor Anna Nagurney on their latest work on global supply chain outsourcing (see Kudos and News below).

Center Associate Professor Dmytro Matsypura, who is at the University of Sydney, traveled from Australia to present his latest research on financial networks.

Center Associate Professor Ladimer S. Nagurney gave the presentation, A Network Model and Computational Approach for the Molybdenum Supply Chain for Nuclear Medicine, based on joint work with the Center Director, at the Fall 2011 Joint Meeting of the New England Sections of the American Physical Society, the American Association of Physics Teachers, and the Society of Physics Students, Amherst, MA, November 19, 2011.

Many of the presentations given by Center Associates can be found on the Center site at: http://supernet.isenberg.umass.edu/visuals.htm

The UMass Amherst INFORMS Student Chapter Garners its 5th National Award

Several chapter officers with Nagurney – Amir H. Masoumi is holding the award plaque

For the 5th year in a row, the UMass Amherst INFORMS Student Chapter was recognized at the Annual INFORMS (Institute for Operations Research and the Management Sciences) Meeting, which took place November 13-16, 2011, in Charlotte, North Carolina.

Several of the chapter officers joined the Center Director, who serves as the Faculty Advisor of this student chapter, at the awards breakfast.

This year's President of the student chapter is Doctoral Student Center Associate Michelle "Dong" Li.

This past semester the chapter hosted another "Meet the Executive" event. On November 18, 2011, Mr. Dan Viederman, the CEO of Verite', which is a non-profit organization, delivered the presentation, Sweatshops and Slavery in the 21st Century: What Business Can Do. His talk generated a lot of lively discussions surrounding supply chain design. She serves as a Councillor-at-Large of NARSC.
global supply chains and corporate social responsibility.

Mr. Viederman with gift bag with some of the members of the audience at his talk

Center Director Authors Invited Commentary for Resources for the Future

The Center Director delivered a plenary talk, Sustainability: Methodology and Applications, at the SAMSI Engineering and Renewable Energy Opening Workshop, which took place, September 19-21, 2011, in Research Triangle Park, North Carolina.

While at SAMSI, she had an opportunity to visit with Center Associate Dr. Padma Ramanujam, who works at SAS, and to also meet with Dr. Radhika Kulkarni, a VP of SAS.

Subsequently, Professor Anna Nagurney was invited by Mr. Joshua Linn, who attended the workshop, to write a commentary for Resources for the Future (RFF). Her commentary, Designing Transportation Infrastructure to Include the Human Element, was published on the RFF website on November 18, 2011 and may be accessed at:
http://supernet.isenberg.umass.edu/commentary/RFF-PolicyCommentary-118111.html

The commentary cites the translation of the original Braess (1968) paradox paper that was done by Professor Dietrich Braess, Center Associate Professor Tina Wakolbinger, and Anna Nagurney and was published in the Journal Transportation Science in 2005.

Kudos and News

Center Associate Professor Tina Wakolbinger of the Vienna University of Economics and Business has two new positions, in addition to her Full Professorship of Supply Chain Servicea and Networks. She is now the Head of the Research Institute for Supply Chain Management and also became the Deputy Head of the Institute for Transport and Logistics Management there.

Her paper, Impacts of Private Earmarked Donations for Disaster Fundraising, with Professor Fuminori Toyasaki of York University, is now in press in the Annals of Operations Research.

We congratulate Dr. Wakolbinger on her professional success!

Center Associates Professors Patrick Qiang, Ke Ke, Trisha Anderson, and June Dong have had their paper, The Closed-loop Supply Chain Network with Competition, Distribution Channel Investment, and Uncertainties, accepted for publication in Omega.

Also, kudos to Professor Patrick Qiang for his paper, Fragile Networks: Identifying Vulnerabilities and Synergies in an Uncertain Age, with the Center Director, which appears in a special double volume issue of the International Transactions in Operational Research (2012), 19, 123-160.

Congratulations to Center Associate Professor Zugang “Leo” Liu, who has had notable successes in publishing. His paper, Risk Reduction and Cost Synergy in Mergers and Acquisitions via Supply Chain Network Integration, with Anna Nagurney, appeared in the Journal of Financial Decision Making (2011), 7(2), 1-18. His paper, Supply Chain Networks with Global Outsourcing and Quick-Response Production Under Demand and
Cost Uncertainty (2011), is in press in the *Annals of Operations Research* and his paper, *Multiperiod Competitive Supply Chain Networks with Inventorying and a Transportation Network Equilibrium Reformulation* (2010), is in press in *Optimization and Engineering*. The latter two papers are also written with the Center Director.

In addition, Dr. Liu co-authored a paper with Center Associate Professor Jose M. Cruz, *Modeling and Analysis of the Multiperiod Effects of Social Relationship on Supply Chain Networks*, which was published in the *European Journal of Operational Research* (2011), 214, 39-52.

In addition, Min with Doctoral Student Center Associate Amir H. Masoumi, and Anna Nagurney, has revised and resubmitted their paper, *A Supply Chain Generalized Network Oligopoly Model for Pharmaceuticals Under Brand Differentiation and Perishability*.

Center Associate Professor Ding Zhang of SUNY Oswego continues to be engaged in research on urban transportation and competitive supply chains with scholars in China, where he recently spent his sabbatical. He has worked on collaborative research projects with Hainan University of Science and Technology (HUST), the Nanjing University of Science and Technology (NUST), and Shanghai University. In addition, this year, Professor Zhang is working with Dr. Shusheng, who is a Visiting Scholar at SUNY Oswego from the Wuhan University of Science and Technology in China. Together they are researching theories and methods of regional logistical management.

Center Associate Dr. Stavros Siokos, is President of *Science Capital Management* and is responsible for the general management of Sciens in its capacity as investment advisor and asset manager for the fund of funds and the managed account platforms. Sciens Fund of Funds Management is part of Sciens Capital Management, which manages assets in private equity, venture capital, aviation, real estate, structured finance and fund of hedge funds. Sciens' investors include financial institutions, pension funds, private banks, foundations, endowments, family offices and high net worth individuals.

The Center Director has been selected as a 2012 Visiting Professor of Operations Management at the School of Business, Economics and Law at the University of Gothenburg in Sweden. She will be spending part of her sabbatical in 2012-2013 at this university. While at Gothenburg University, she will be working with faculty there, in particular, those in the Logistics and Transport group, the Environmental Economics group, and the Centre for Finance.

Center Associate Professor Patrizia Daniele of the University of Catania in Italy is organizing a session on *Variational Analysis* for the upcoming International Symposium on Mathematical Programming that will take place next August in Berlin, Germany.

Center Associate Professor Patrizia Daniele of the University of Catania in Italy is organizing a session on *Variational Analysis* for the upcoming International Symposium on Mathematical Programming that will take place next August in Berlin, Germany.

Congratulations to Professor Daniele on the acceptance of her paper, with Professors A. Barbagallo and A. Maugeri, *Variational Formulation for a General Dynamic Financial Problem: Balance Law and Liability Formula*, which is in press in the journal, *Nonlinear Analysis: Theory, Methods & Applications*.
Center Associates will be represented at the upcoming the SBP, CMS, and POMS conferences that will take place, respectively, at the University of Maryland, Imperial College in London, England, and in Chicago, Illinois.

Welcome luncheon for Visiting Doctoral Student Student Feixiong Liao

For two months in the Fall, Mr. Feixiong Liao, who is a doctoral student at the Eindhoven University of Technology in The Netherlands, visited the Supernetworks Center and Lab. He is working on a dissertation on supernetworks under the supervision of Professor Harry Timmermans. The Center Director congratulates Mr. Liao on his receipt of the Outstanding Student Paper Award at the recent Transport Dynamics conference that took place in Hong Kong in December 2011.
